EBA Command Center 8 | EBA Tools

Terms of Service | Last Updated 4/22/21

Warning: If you receive an email claiming to be from EBA Tools, it might be a scam. We will never ask for your EBA Key, passwords, or email address. We only send out emails when you contact us, purchase an EBA Key, or we invalidate your EBA Key. Make sure the email is authentic, before sending any information.

1. Use of EBA Keys

   a. When you get an EBA Key, you assume all responsibility for anything related to your EBA Key. We may invalidate your EBA Key if it is found online, or is shared between multiple users. Do not share your EBA Key with anyone.
   b. EBA Keys are strictly used for its intended purpose. Use of EBA Keys outside of EBA Command Center is not permitted. EBA Keys are non-upgradable, and are not permitted to be used with a different edition of EBA Command Center. EBA Command Center will detect your EBA Key and will select the correct edition from the internet. There are no discounts for upgrading your EBA Key.
   c. EBA Keys that are invalidated will no longer be available to EBA Command Center users. You'll receive an email if you were the original purchaser. To avoid losing your EBA Key, do not share it with anyone.

2. Use of EBA Command Center

   a. By downloading EBA Command Center, you agree to these Terms of Service. EBA Tools provides EBA Command Center as a free service, but can be upgraded at any time, by purchasing an EBA Key. EBA Keys are only purchased on the official EBA Command Center website. Any EBA Keys found on other websites will be removed from our servers.

3. EBA Tools' Responsibilities

   a. We at EBA Tools are not responsible for any damage caused to your computer due to misuse. Do not download .ebaimport or .ebabackup files from untrustworthy sources, as these files can be potentially harmful.
   b. We cannot be held responsible for any issues caused by EBA Command Center. If you experience a harmful bug, we'll try our best to undo the damage, but we still can not guarantee that we can fully undo the damage. We test EBA Command Center on a regular basis, on multiple occasions, and on multiple operating systems.

    c. If you delete critical EBA Command Center files, it WILL break EBA Command Center. In this case, we cannot be held responsible for any issues caused by using EBA Command Center. Do not modify critical files without first understanding what can happen:

        i. EBA Command Center may not start correctly.

        ii. EBA Command Center may not close correctly.

        iii. EBA Command Center may not load settings/data correctly.

    d. EBA Command Center must be refreshed in order to fix damage caused by deletion of critical files. Refreshing will create a clean install of EBA Command Center, which will, in most cases, delete your EBA Command Center data. Make sure to keep backups of important files. EBA Tools cannot and will not replace these custom files.

4. Improper Installation

    a. Make sure you properly install EBA Command Center. Improper installation can be caused by not listening to warnings, or installing to directories that really shouldn't have an installation of EBA Command Center. Examples include:

        i. Installing on an unsupported operating system (Such as Windows XP or Windows 95)

        ii. Installing to a directory on your system that is reserved for critical system files (Such as C:\Windows\System32 or C:\Windows\Boot)
